BE IT ORDERED THAT THE CITY COUNCIL, acting according to the powers granted to it by the City and the Mayor transfer Parcel A from land under control of the Mayor to control of the City of Chicopee Flood Control Department to satisfy the requirement of the United States Army Corp of Engineers (USACE). This parcel is to serve as permanent access to the portion of the Levee system.

As part of the ongoing Dike Recertification process, USACE requires the City to have permanent designated access to the Flood Control Levee system for current and future maintenance and/or repair of the system.

Currently, the Flood Control Department doesn't have a designated access to the Levee system along the Connecticut River, from the underpass of Route 391 northerly to the end of the Levee system.

Dear Counsel,

Charter is in the process of bringing a fiber optic cable to the Polish National Credit Union, located at 244 Exchange St. We will bring the fiber down School St to Miller St. in order to reach their facility. Charter plans on installing a 4' conduit from pole #12 on School St to the rear of the building. We will place two new vaults in the sidewalk along the way for future break out in order to service other businesses within the area.

We look forward to hearing back from you on this matter near future thank you.

Sincerely yours

Daniel Brault
